KITCHEN TAPS

Boiler Tap

Tap Details

- Height: 343mm
- Width: 166mm
- Colour/Finish: Polished Chrome
- Material: Brass
- Style: Modern
- 360° Swivel Spout
- High Quality
- Tri Flow Kitchen Tap
- Hot + Cold Lever Mixer Handles with standard water on the right
- Child safe spring lock boiling water dispenser
- Replaceable carbon filter provided
- Minimum Tap Hole Size: 35mm
- Guarantee: 5 Year

Boiler Details

- Touch Screen Digital Interactive Control
- 2.4 Litre Boiler Unique
- Unvented Design Eliminates Extra Pipework
- Temperature Adjustable from 75°C to 98°C
- Unobtrusive Easy Clean Compact Design
- Guarantee: 2 Year

The instant hot water appliance is an open vented system appliance when not being operated the pressure is 1.0 bar.

The operating pressure is 1.5 bar to 5 bar.
Replacement Cycle for Water Filter – 3-6 Months

PRODUCT FEATURES

FURNITURE

- SOFT CLOSE DOORS / DRAWERS**
Soft close doors / drawers reduce the amount of maintenance and adds life longevity to your furniture by lessening the stress on hinges and hinge plates.
- CHOICE OF HANDLES**
We aim to give you that bespoke custom feel by offering a variety of handles, whether it's ultra modern or more traditional style, we have it covered.
- STORAGE BOX OPTIONS**
A simple and contemporary storage solution. Our modular boxes design is cleverly proportioned to fit seamlessly in your furniture drawers. These functional units are ideal for housing bathroom essentials, sundries and smaller accessories, with lidded options for your convenience.
- SHORT PROJECTION**
The perfect choice for those looking to gain some extra space in their bathroom, this option gives a slim depth unit while not compromising on functionality. These units are designed not to protrude as far as standard depth units and therefore take up less floor space in the bathroom.
- LIGHTING OPTIONS**
A convenient strip lighting kit. Perfect for brightening dark in-drawer spaces and helping you find bathroom essentials quickly and easily.
- PUSH TO OPEN**
No need for handles or knobs. The telescopic drawer slide gives full access to the drawer and also has a disconnect option for easy installation and removal.
- CERAMIC BASIN**
Units supplied with a ceramic basin option; Ceramic Basins offer durability in your bathroom. Ceramic sinks have an extremely strong surface that is resistant to scratching, chipping, and impacts, which makes them able to withstand the rigors of everyday use.
- ISOCAST BASIN**
Units are supplied with an isocast basin, these isocast basins give a slick and precise finish to sit proudly on top of the furniture. Each basin is made to perfection ensuring the basin and unit combination are the design feature of any bathroom.
- WORKTOP BOWL OPTION**
Giving you even more choice to your furniture we have included a selection of a worktops and a variety of styled vessel basins and not limiting your choice to the traditional ceramic basin.
- WORKTOP UNDERSLUNG BASIN**
To offer additional options for you, we have included a choice of a worktops and under-mounted basins. This option is designed with style in mind but also to give space and functionality back to a busy bathroom environment.

MIRRORS

- LED LIGHTING**
LED lighting products produce light up to 90% more efficiently than incandescent light bulbs. LED lighting is more efficient, versatile, and lasts longer.
- INFRARED SENSOR**
An infrared sensor helps to detect the movement of your hand and turn the LED lights on without an unsightly pull cord hanging down.
- HEATED DEMISTER PAD**
Heated mirror demister pads ensure that your mirror remains crystal clear even in the steamiest bathrooms. Attempting to wipe away the steam is ineffective and only results in soiling the mirror, making it even more difficult to clean.
- COLOUR TEMPERATURE & DIMMABLE**
The main advantages of CCT (Colour changing technology) adjustable lights are that you're not stuck with one colour temperature and you can change it depending on the function of the room.
- BLUETOOTH AUDIO**
These bathroom mirrors with Bluetooth speakers enable you to connect your phone wirelessly, allowing you to stream music, radio, and podcasts while you shower.
- IP44 RATING**
A product that has a rating of IP44 means that it is protected against solid objects that are bigger than 1mm and water splashing from all directions.
- WIRELESS CHARGING**
These mirrors have a smart contactless sensor so you can charge your wireless charging devices without having to plug them in.
- CHARGER SOCKET**
These elegant and stylish mirrors will ensure you never get caught without power for your shavers and electric toothbrushes.
- LANDSCAPE OR PORTRAIT**
The choice to place the mirror either in Landscape or Portrait format.
- TOUCH SENSOR**
Touch sensor operated LED light.

SANITARY WARE

- COMFORT HEIGHT**
Comfort height toilets measure 4-5cm higher than a standard toilet, this makes them more comfortable for the user. A comfort height toilet may be the best option for you if you're taller, elderly or less mobile as there's less pressure on the knees and other lower body joints. Sitting down and getting up is made easier by the extra height.
- WALL HUNG**
A wall hung toilet is mounted onto the wall instead of the floor. The cistern is fitted into the wall and is accessible via a flush panel. As the toilet pan floats a few inches above the floor, it creates the illusion of a larger bathroom and makes cleaning easier too. The toilet pan is mounted onto a wall frame.
- BACK TO WALL PAN**
A back to wall toilet has been designed to be positioned against the wall with the cistern and pipework hidden from view so that only the toilet pan is visible. The cistern can be fitted into a WC unit or into the wall.
- RIMLESS TECHNOLOGY**
The rimless design makes it exceptionally hygienic and easy to clean, a simple wipe of the rim means there is nowhere germs can hide. Water is projected around the bowl to reach every part and ensure it is completely clean.
- FULLY SHROUDED**
A fully shrouded toilet, meaning the waste pipe and water inlet are "fully shrouded" within the ceramic, so the toilet sits flush against the wall.
- EXPOSED INLET**
As the name suggest the pipework for the pan are exposed at the back, this allows access to the water supply for the cistern.
- OPEN BACK**
Open back toilets are not fully concealed to the wall. This allows for easy access to pipework.
- SHORT PROJECTION**
A short projection toilet means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. A short projection toilet is ideal for a small bathroom or cloakroom suite.

BRASSWARE

- ECO SAVE TECHNOLOGY**
A two setting option available on the taps that reduces flow by 50% with the first setting and full flow with the second setting. This feature helps to conserve water.
- 180° SPOUT**
We have a wide variety of furniture handles; whether it's an ultra-modern look you are after or a more traditional style, we have it covered.
- MATCHING SHOWERING OPTION**
This tap offers a matching showering option to complete your desired bathroom.
- FREE STANDING BATH FILLER OPTION**
This tap offers a matching Freestanding bath filler giving you the complete look.
- LOW PRESSURE**
Low-pressure taps respond to this pressure by use of a drop-by-drop water surplus. Low-pressure taps are made to compensate for the high pressure that builds up between your water pipes and the hot water processing system. Using suitable low-pressure taps is crucial if your home plumbing system is open-vented.
- ANTI-LIMESCALE**
One of the key issues is that limescale can build up around 'hot spots' within the showering system. To eliminate this issue, Anti-Limescale technology works by lengthening the heating elements as well as widening the gaps between the coils. This means that the heating tank runs at a consistent temperature throughout, eliminating the chance for 'hot spots' and the build-up of limescale.

SHOWERING

- TOUGHENED SAFETY GLASS**
Is stronger than regular glass. This added security is achieved by heating the glass at a high temperature and rapidly cooling. The result is a wetroom panel that is more resistant to impact, giving you peace of mind in your bathroom shower.
- CLEAN - CLEAR GLASS COATING**
Ensuring your enclosure stays easy to maintain, we offer Clean - Clear Glass Coating. The coating on our glass means that water will be less likely to gather and pool on the surface of the glass, instead it will run down the glass leaving fewer streaks and stains.
- RANGE OF STABILISING OPTIONS**
We offer a range of stabilising options for our wetroom panels so you get the best piece of mind no matter what type of installation you incur.
- MAGNETIC CLOSURE**
All our enclosures offer magnetic closing systems to try eliminate the enclosure being accidentally opened while in use.
- REVERSIBLE**
Our Enclosures are reversible where possible, meaning they can allow for either a right or left side opening.
- 25 - 50mm ADJUSTMENT**
Offering adjustment on all enclosures for out of plumb walls.
- QUICK RELEASE ROLLERS**
Our enclosures are fitted with quick release rollers where possible. Quick release rollers allow access for cleaning in difficult to reach areas, simply unclick the rollers, clean and click back into place when done.
- TMV2**
A TMV2 fitting is designed for use in a domestic environment. They work with water pressures of between 0.1 bar and 5 bar, and are ideal for use in households and other domestic settings.
- COOL TOUCH**
Cool touch' version ensures that the metal valve body does not get warm to the touch, unlike conventional bar mixer showers. With cool touch, the cold supply runs across the valve before being 'mixed' to ensure added showering comfort and safety for children when showering.
- TMV3**
TMV3 fittings have been specifically designed for use in healthcare environments. Hospitals, care homes, and other similar settings must use these; installing TMV2 valves would not suffice. TMV3 fittings are also designed to work with much higher water pressures, from 0.2 bar to 10 bar.

BATHS

- ULTRA SLIM DESIGN**
- MODERN MID-EDGE FINISH**
- TAP LEDGE**
The bath has a built in tap ledge for fitting a deck mounted bath filler or bath shower mixer if desired.
- TAP HOLES**
The bath come pre-drilled with tap holes.
- WASTE INCLUDED**
The bath has wastes included with the package.
- LEG OPTIONS AVAILABLE**
The free standing bath has an option for chrome or black claw feet.
- COLOUR OPTIONS**
A choice of colours options available for your bath.
- WHIRLPOOL JET OPTIONS**
The bath has an option for whirlpool jets.

HEATING

- TOWEL HANGING OPTION**
A bathroom radiator is a great way to complete the look of any bathroom but also has the practical use of warming your towels. A heated towel rail is easy to install and come in lots of different sizes and styles to meet your needs.
- ALUMINIUM RADIATOR**
Aluminium radiators transfer the heat from the boiler to the room faster than steel radiators. They require less heated water from the boiler and will be faster to respond to changes in the room heat requirement, reducing any wasted heat.
- DESIGNERS CHOICE**
Designer radiators are designed to add unrivalled and superior style and comfort to any room of your home, without compromising on functionality.
- SIZE OPTIONS AVAILABLE**
A comprehensive range of sizes available suitable for all bathrooms.
- COLOUR OPTIONS**
A choice of colours options available for your radiator.
